OUR STORY

Established by Shelley and Steve Jeffery in 2010, Elite Holiday Homes has quickly grown to be one of Queensland's premier renters of luxury holiday homes.

Steve and Shelley are avid travellers with their family and friends. They started the business after discovering an under-serviced niche in luxury accommodation available in one of Queensland's best tourist destinations. They began with holiday letting their own property and before long they had owners of luxury properties requesting that they also manage their homes. The business was born and Steve, a previous member of the Water Police and Electrician has taken on the role of Maintenance Manager and Shelley, with a background in Financial Markets, takes care of the administration side of the business. Together they have a business they are passionate about in an industry they love - holidays!
